Pre-INSTALLATION Guidelines

1. Material arrival at site - Client must provide a lock and key room to store the material. Material cannot be stored with the Pitamberdas once dispatched from Port.
2. Apertures stone must be cleaned and protective stickers must be removed by customer along with any residue-cement /P.O.P also shall be cleaned by the client's t
3. scaffolding if needed on site, shall be under customer scope. Delaying in providing and installing scaffolding will affect in installation days and Pitamberdas will not be responsible for such delays.
4. Glass lifting and shifting on each floor as guided by the pitamberdas team under client scope or else charges as per actual.
5. 10-15 days prior intimation must be received to our customer group to start the installation.
6. Installation start is recommended once all cement and P.O.P work is completed and after team visit to check the site status.
7. Incase installation is done at the time of cement and P.O.P work client must cover all the windows as guided by the Pitamberdas supervisor if not done then Pitamberdas team or Tostem will not be held responsible for any damages.
8. We recommend to complete all installation in one Go, but incase customer needs installation to be done in parts or floor wise, same shall be informed in advance. Second lot installation shall be start after 10-12 days with prior intimation only.
9. For any kind of M.S fabrication work needed at site, procurement and installation work end with extra charges as defined by management. will be under client's scope only. Team PC can do the work at our
10. Once installation is completed handover must be done within 2 days and windows must be covered as guided by Pitamberdas team. Team PC will not be responsible for any damages of Profile/Glass if handover not taken by customer within 2 days after installation.
11. For making happy windows, and error less process, Team PC will paste customised size and other detail stickers on each and every aperture. Aperture size with other detail sheet also been submitted and acknowledged by customer/customer's engineers. Same shall be kept in records by both the parties. Client must maintain Aperture sizes as per that sheet only. Changes in that, Team PC will not be responsible for the same.
12. Incase of submerged profiles client must maintain the aperture as per the provided details.
13. once material is unloaded at site it is under client's responsibility
14. In case of Grills or curtains client should inform us in advance (Grills has to be installed after windows and mesh are installed with silicon).
15. Cleaning and covering of the windows sections or glass is under client's scope only.
16. Incase of delay in committed deadlines due to unforeseen circumstances like weather, vessel delays, glass breakage, power cut, wrong product or glass sizes, Pitamberdas team will not be liable to any compensation.
17. Glass shall be ordered just before starting the installation and once placed at site shall not be relocated to avoid complexity in installation or avoid breakage of glass.
18. Incase of there is delay in taking final measurement due to any fabrication or unavailability of aperture or unaccessibility client must provide required

Procedure after order is confirmed

19. Order booking with the token amount as per payment terms and final quotation
20. Final quotation with sales representative and client's signature is required to finalize the details. (Quantity, series, section shade, glass shade, glass type and thickness, orientation) please note: Any changes done here after needs to be confirmed on email by the client/architect only.
21. Final walkthrough with Pitamberdas sales and installation representative along with client/architect has to be done.
22. Final measurements with ready aperture/ agreed sizes once taken client/architect/pmc has to confirm the measurement sheets
23. Payment needs to be done as per payment terms so dwgs can be generated.
24. It will take approximate 5-7 working days to drawing generation depending on the design complexity.
25. It takes approx 10-12 working days to start actual production from extrusion process after final measurement is done. Please note: drawing could not be generated unless second payment installment is cleared as per the payment terms.
26. On dispatch of the material from the Tostem Thai factory, intimation shall be made to release the balance payment as per payment terms. please note: to get material cleared from customs at the Indian port payment must be cleared to avoid delays and demurrage charges
27. On dispatch of material for site Pitamberdas team shall intimate client and visit the site to check the material storage room which has to be locked and key.
28. In case of agreed aperture sizes shall be checked by Pitamberdas team if not ready then it has to be done on priority basis.
29. On arrival of material in the sealed container responsible person has to be available from client side when unloading the container.
30. Material is unloaded from the container and stored we recommend not to reshuffle to avoid any damage or misplacement of the material. once material is counted and unloaded on site in presence of the client's responsible person it will be sole responsibility of client team to keep the material safe.
31. Installation team is trained as per guidelines provided by the Japanese team itself.
32. On completion of installation, Pitamberdas Installation head will check all system and then a walkthrough with the client to check the system as per the quality check documents will be done.
33. On completion of quality check we request the client to sign the QC document with the feedback form.
34. We recommend to install bug mesh before client is ready to move and deep cleaning is done. [But before installing Grills]
